# Diagnostic and Interventional Endoscopy

## AIMS AND SCOPE

Diagnostic and Interventional Endoscopy (Diagn Interv Endosc) is an international, scientific, open access, online-only periodical published in accordance with independent, unbiased, and double-blinded peer-review principles. The journal is published triannually in April, August, and December. The publication language of the journal is English.

Diagnostic and Interventional Endoscopy aims to contribute to the literature by publishing manuscripts at the highest scientific level on diagnosis, and treatment of digestive diseases. The journal publishes original article, review, case report, letter to the editor, and image of the month that are prepared in accordance with ethical guidelines. The scope of the journal includes gastrointestinal endoscopic procedures.

The target audience of the journal includes specialists, researchers and professionals who are working and interested in the field of gastrointestinal endoscopic procedures.

Diagnostic and Interventional Endoscopy currently indexed in DOAJ and EBSCO.

The editorial and publication processes of the journal are shaped in accordance with the guidelines of the International Committee of Medical Journal Editors (ICMJE), World Association of Medical Editors (WAME), Council of Science Editors (CSE), Committee on Publication Ethics (COPE), European Association of Science Editors (EASE), and National Information Standards Organization (NISO). The journal is in conformity with the Principles of Transparency and Best Practice in Scholarly Publishing ([doaj.org/bestpractice](https://doaj.org/bestpractice)).

All expenses of the journal are covered by the Society of Gastrointestinal Endoscopy (Turkey) processing and publication are free of charge with the journal. No fees are requested from the authors at any point throughout the evaluation and publication process. All manuscripts must be submitted via the online submission system, which is available at <https://diagnintervendosc.org/>. The journal guidelines, technical information, and the required forms are available on the journal's web page.

### Advertisement Policy

Diagnostic and Interventional Endoscopy can publish advertisement images in the journal's website upon the approval of the Editor in Chief. Potential advertisers should contact the Editorial Office. Advertisers have no effect on the editorial decisions or advertising policies.

### Disclaimer

Statements or opinions expressed in the manuscripts published in the journal reflect the views of the author(s) and not the opinions of the editors, editorial board, and/or publisher; the editors, editorial board, and publisher disclaim any responsibility or liability for such materials.

### Open Access Statement

Diagnostic and Interventional Endoscopy is an open access publication, and the journal's publication model is based on Budapest Access Initiative (BOAI) declaration. All published content is available online, free of charge at <https://diagnintervendosc.org/>. The journal's content is licensed under a Creative Commons Attribution-NonCommercial (CC BY-NC) 4.0 International License which permits third parties to share and adapt the content for non-commercial purposes by giving the appropriate credit to the original work.

You can find the current version of the Instructions to Authors at <https://diagnintervendosc.org/>.

# Diagnostic and Interventional Endoscopy

## FROM THE EDITOR

Endoscopic imaging technologies and new endoscopic techniques are developing in all over the world. Many valuable manuscripts including endoscopic diagnostic and therapeutic techniques may not meet with an international journal even deserving. It is clear that an additional international journal is needed which specifically focus on endoscopic diagnosis of gastrointestinal diseases and endoscopic therapeutic procedures.

On behalf of Society of Gastrointestinal Endoscopy (Turkey), it is my honor to announce the first issue of Diagnostic and Interventional Endoscopy (Diagn Interv Endosc). Diagn Interv Endosc, the official journal of Society of Gastrointestinal Endoscopy (Turkey), is an open access, online-only and triannually published in accordance with double-blinded peer-review principles. The publication language of the journal is English. All published content is available online, free of charge at the journal website. One of the most important aim of the journal is to publish high quality manuscripts and also to be indexed in Science Citation Index, PubMed/MEDLINE, Scopus and TUBITAK ULAKBIM TR Index. Original article, review, case report, letter to the editor, and image of the month will be published.

Finally, many thanks to the Turkish Society of Gastroenterology since all expenses of the journal are covered by the Turkish Society of Gastroenterology.

Best regards

**Prof. Dr. Fatih Tekin**  
Editor in Chief
